

THE GATS

Designed by Yochen Verbeeck, from Belgium, The Gats glass was chosen from nearly 300 entries as the winning glass concept from the 2018 edition of the Libbey Europe Glassology design contest!

The inspiration for this glass blends the golden age of Art Deco with modern design. It's smooth, curved lines and polished surface capture the glamour of the Roaring Twenties in New York, the setting used for *The Great Gatsby* by novelist F. Scott Fitzgerald.

Features and Benefits:

- Classic cut design emits the electrifying feeling of Roaring Twenties New York City
- Create high style beverage presentations commanding premium price points
- Tall, narrow hi-ball size highlights tall cocktails, and is excellent for alcohol-free cocktails
- Shorter profile of the rocks glass provides an excellent presentation for higher-proof pours – standard is 80-90 proof, spirits too

"I brought my love for my family, art and history together in one design. I wanted to keep it simple and let the glass speak for itself." Yochen Verbeeck, Glassology winner.
